

Professional 4x4 Off-Road Course

► Course objectives

Delegates will leave with a lasting knowledge of the control and technique needed for driving a 4x4 vehicle, as well as knowledge of assessing and managing risk.

Delegates will learn how to:

- Recognise a safe working environment
- Assess ground conditions
- Prepare and perform necessary maintenance checks to ensure safety of vehicle
- Route plan
- Safely operate a 4x4 vehicle in a variety of off-road conditions
- Understand the dangers involved in vehicle recovery

► Who should attend?

People operating a four-wheel drive vehicle in off-road situations.

► Additional information

This practical, hands-on driving course is conducted on a superb course where even the most experienced driver will be challenged.

It would be an advantage to be familiar with the vehicle controls. Customers must supply their own vehicles.

The course is run on a 3:1 delegate to trainer ratio.

Benefits to client

- Fewer and lower accident repair costs
- Less down-time because of maintenance, repairs and injuries
- More reliable vehicle scheduling
- Savings on fuel, tyres and spares
- Enhanced company image

Duration

This two-day course takes place at dedicated sites around the UK.
