

National Diploma in Advanced Driving Instruction

► Course objectives

This course aims to provide delegates with the core skills necessary to demonstrate advanced driving techniques and methods of instruction.

By the end of the course, delegates should be able to:

- Demonstrate effective classroom management techniques, teaching aids and presentational skills
- Explain facilitators and barriers to learning
- Demonstrate their ability to give instructional commentary on all types of road and environment
- Suggest methods of providing remedial help and advice, and monitoring the effectiveness of interventions
- Prove their instructional ability through theory, practical and classroom examinations

► Who should attend?

Those who provide training to prepare other drivers for an advanced test, or advanced driving generally.

Those who wish to develop their ability to train to an advanced level both in the classroom and in-vehicle within the fleet industry.

► Additional information

A detailed knowledge of Roadcraft and The Highway Code is essential and a course prerequisite. An awareness of the instructional techniques would be helpful. An outline knowledge of car mechanics, similar to that gained from an owners' manual, is necessary.

Delegates must have achieved Gold or Silver in RoSPA's Advanced Test, or Gold in the RoADTest, or equivalent qualification.

An ADI Qualification may be necessary to deliver training in car.
