

*Playgrounds should be
as safe as necessary,
not as safe as possible*

Playground Inspections

For Parish, Community & Town Councils, Schools and
Voluntary Groups and Commercial Organisations

From the world's premier play safety organisation

ROSPA
The Royal Society for the
Prevention of Accidents

Leading the world of play safety

Why RoSPA?

RoSPA is a leader in the world of play safety. Our inspections bring world-wide experience and practicality to your playground to provide you with meaningful and sensible inspection reports. Our experience enables us to let you know what you really need to do to make a difference to safety. We don't make recommendations to try to sell you spare parts. Clients get year-round access to our technical support too.

What we inspect

We can inspect any area outside of the home where children play. Typically this will include:

Playgrounds	Teenage Facilities
Skate Parks	Parcours
Multi-use Games Areas	Water Features
Playing Fields	Parks & Open Spaces
BMX Tracks	

You can use this form to order annual inspections and more for all of the above. If you wish to take advantage of our other services, such as post-installation inspections, plans-checking, training and consultancy services please get in touch by phone, email, fax or post. Inspections will be conducted in the timescales noted unless otherwise agreed. You can set up a standing order for automatic inspections to save you trouble in future. You will be notified prior to any subsequent inspections.

Your annual inspection report will include risk ratings for each item and fault found. This information can also assist in the development of risk-benefit assessments.

Extras

Routine inspection checklists, tailored to your site, and accessibility assessments (to help with legal requirements) can be undertaken at the same time as your annual inspection (additional charges apply—see order form)

Report Format

Our reports include photographs of your site, equipment and faults that need attention, so you can be sure that you understand what is required first time. All reports will be delivered electronically in order to reduce the amount of paper that we consume, but you can opt to have a paper report if you wish.

Quality

All of our playground inspections are carried out by fully qualified members of the Register of Play Inspectors International (RPII). We carry public liability insurance and professional indemnity insurance of £5,000,000. Our play safety reports are produced under a quality management system to ISO 9001 that is certified by British Standards Institution, certificate number FS 522192.

FS 522192

RoSPA Playsafety Ltd is the only body authorised to conduct RoSPA Inspections

ROSPA
The Royal Society for the
Prevention of Accidents
