

RoSPA Occupational Advanced Driving Test (RoADTest) Course

Objectives

The RoSPA Occupational Advanced Driving Test (RoADTest) is the only test designed specifically to meet the unique needs of business drivers and sets the benchmark standard for 'at work' driving.

Objectives of the RoADTest:

- Benchmarked standard in line with RoSPA Advanced Driving Test
- Tests driver knowledge, ability and hazard perception
- Reinforces training messages over a longer period of time
- Delivered by appropriately trained and selected trainers
- Ensures a minimum standard
- Potentially lower insurance premiums
- Drivers have the tools for their job
- Job satisfaction

Who should attend?

The course is aimed at anyone who drives for work purposes.

Benefits to client

- Reduced accident and incident claims and repair costs
- Lower insurance premiums

Duration

One-three day course depending on experience.

Location

Training can be undertaken at customers' premises or at a mutually agreed location.

Additional information

This course runs on a 2:1 delegate to trainer ratio.

All delegates should be familiar with the latest edition of the Highway Code.

This course is available in a range of vehicle types.

Successful drivers will receive a licence valid for three years, after which they should re-test to keep their qualification up to date.

accidents don't have to happen

- Less time lost due to maintenance and repair
- Increased productivity through more reliable vehicle scheduling
- Savings from reduced wear and tear to vehicles and improved fuel consumption
- Better trained and motivated staff
- Improved company image from drivers' greater care and courtesy
- Reduced risk of litigation
- A recognised qualification with BTEC accreditation
