

IOSH Work Placement Assessors

► Course objectives

The aim of this course is to provide delegates with sufficient knowledge to be able to assess a work place in terms of health and safety in order to determine its suitability as a work experience placement.

On completion delegates will be able to:

- Understand the roles and responsibilities of all parties involved in work experience placement
- Understand the causation theory of work-related accidents/incidents and ill-health and the methods of prevention
- Identify a range of common hazards presented by workplaces, and control measures necessary to ensure the risks are reduced to an acceptable level
- Communicate effectively with employers providing work experience opportunities so they are reasonably satisfied that those employers will fulfil their health and safety responsibilities to those on work experience placements

► Who should attend?

The course is intended for all those in the education sector, Training and Enterprise Councils, Education Business Partnerships and other organisations that arrange, monitor or administer work experience placements.

Previous involvement in work placement assessment, including arrangement, monitoring or administration would be advantageous.

► Further information

The practical assessment must be completed in the workplace and submitted within two weeks of completing the course.
