Introduction

What are the RoSPA Awards?

The RoSPA Health and Safety Awards were established in 1956 and are internationally recognised as the most sought after accolade in the health and safety industry by organisations from every sector. Entry is open to all, irrespective of membership status.

The Awards have become the key fixture in the health and safety calendar and offer organisations a prime opportunity to prove their ongoing commitment to raising health and safety standards and to be a part of the longest running and most highly respected occupational safety awards programme.

For the last twelve years, the awards have been sponsored by NEBOSH, who along with IOSH and other key industry bodies, provide experts for the judging panel.

This e-book will tell you all you need to know about the awards and set you on the path to achieving Gold status for your business...

3. Industry Sector Awards

The competitive sector awards recognise the organisations that have demonstrated the best health and safety management performance within specific industry sectors.

In each sector there will normally be one overall winner. One or more organisations may also be 'commended' or 'highly commended'. Sector award entrants who don't get a top award still go on to be assessed for an achievement award, but with enhanced feedback provided.

Entrants must demonstrate a consistently excellent and continuously improving performance and ideally provide evidence of a particular initiative or innovative approach which would justify their selection as "best in sector".

Each sector award winner receives an engraved silver salver, whilst 'Highly Commended' and 'Commended' winners will receive a personalised plaque to display in their workplace.

1. Colchester Zoo

Colchester Zoo prides itself on maintaining a safe and efficient working environment. The Zoo has been awarded a RoSPA Award for health and safety, which has enabled them to set goals for staff to meet and exceed.

Construction Manager, John Game discusses why the zoo entered the RoSPA awards and how the organisation will continue to improve their attitude towards health and safety issues.

Why is achieving a RoSPA Award important to your business?

Achieving a RoSPA Award has been a great way to recognise how well the staff have worked together and achieved the goals set in a short space of time. This has helped with team morale and motivation to continue and exceed their great work.

How is health and safety managed in your organisation?

Colchester Zoo manages health and safety within the business, but also has a health and safety consultant visit twice per week.

What is your greatest health and safety achievement over the past year?

Over the past year Colchester Zoo has increased knowledge of health and safety within the workforce and this has improved the overall working environment which has reflected in a recent audit which is now a respectable 92%.

How will you build on your RoSPA Award going forward?

Going forward we will continue with training and implementing new strategies to maintain a safe and more efficient working environment.

“For other organisations entering The RoSPA Awards we would advise that a realistic benchmark is set for staff and to offer as much practical staff training as possible. Inevitably this will increase work output and enhance the team’s morale and attitude towards health and safety issues.”

John Game, Construction Manager
