

# Who drives - Health and Safety

**Sandy Allan**  
14 November 2018

What would you consider the most dangerous activity some can undertake whilst working.

# Driving for Work

# Reported Road Casualties 2017

- Collisions where driver journey part of work – 1809 (7,114)
- Collisions where driver/rider commuting - 1253
- 37 people killed on Scotland's roads where some driving for work was a factor (338 Serious)
- 26 per cent of all casualties were the result of someone driving for work

# Driving for Work

- Who or what governs what we do whilst driving for work?
- Is there are overarching body which is responsible?
- Is there legislation?
- What role does an employer have?
- What role do you have?

- **RoSPA identified these issues and approached Transport Scotland and other Public bodies to form a partnership a common goal of making driving for work safer.**
- **Highlighted a ‘gap’ in legislation and working practices – especially within smaller organisations.**
- **A significant lack of awareness and capacity to create and manage policy and working practices.**
- **Provide a gateway to expertise, resources, templates and networking.**

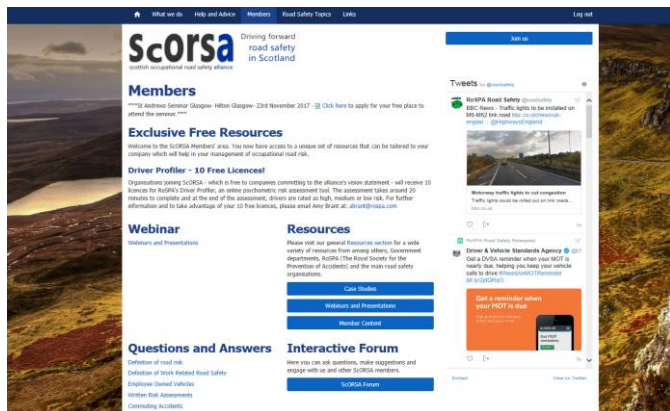

# Created to provide free information and support to Small to Medium Sized businesses to support and raise awareness of Managing Occupational Road Risk
