To help keep children safe, Fairy Non Bio has designed a NEW Family Pack featuring an enhanced "Child-Lock" system: easy for parents to secure, but very difficult for little hands to unlock. The mechanism requires a coordinated action to open – tabs on the lid need to be pushed down and the lid needs to be turned, at the same time. The system has been specially designed to be extremely challenging for children under the age of five to use, but easy for parents to master. **Fairy Non Bio is dedicated to caring for your clothes and helping you care for your family too.**
