

Road to Zero Harm

- Continued widespread improvements towards latest Employee LTI Frequency Rate target.
- Reduced numbers of LTIs for Contractors
- MPA Incident definitions now include Modified Work Cases and Medical Treatment Injuries. These are now recorded by all MPA members on a quarterly basis.
- ‘Safer by Sharing’ 2016 Programmes will ‘managing psychosocial risks’.
- www.SafePrecast.com website and App launched, providing access to a further potential 8,500 employees and supply chain.
- Continued support of the EU ‘NEPSI’ Social Dialogue Agreement regarding Respirable Crystalline Silica (RCS). Currently in 2 month international “Reporting” window. NEPSI covers 15 industries and their social partner ‘Industrial - European Trade Union’. Martin Isles published paper on ‘NEPSI’ in February 2016 issue of ‘Quarry Management’.
- New ‘Healthier by Association - RCS’ site audit tool launched for members; planned development of new ‘Healthier by Design’ initiative.
- Facing impending European Commission decisions as to whether RCS is regulated by an amended ‘Carcinogens & Mutagens Directive (CMD), or Chemical Agents Directive (CAD).
- New publications for SME’s on achieving Continued Professional Development (CPD); new MPA Drivers Handbook to be launched March 2016.
- www.Safequarry.com continues to grow quickly with over 50,000 hits unique users in 113 countries. ‘Safequarry’ App increasing sharing potential of best practice and delivery of ‘push’ notifications/messaging on key industry topics and alerts have enabled MPA to share information faster and more intelligently.
- MPA represented along with positive contribution at 2 of the 7 HSE roadshows developing the new UK H&S Strategy ‘Helping Great Britain to Work Well’.
