

Vulnerable Road Users Course

Course objectives

This full day course is a cost effective way to train a large number of delegates in one go. The course is interactive and aims to encourage a positive attitude towards driving.

Course content

- Who's vulnerable?
- Casualty stats by road type and the link to vulnerable road users
- Are roads forgiving? Are driving mistakes all punished or are some forgiven?
- Who's really vulnerable? Does size matter?
- Consequences of things going wrong
- Human factors
- Speed awareness
- Collision investigation
- Cooperative use of space

Benefits to client

- Cost-effective way to train many employees, with low employee down-time
- Reduced accident and fuel costs
- Improve employees' driving skills
- Course can be tailored to customer's exact requirements

Duration

One day course.

Location

Training can be undertaken at customers' premises or at a mutually agreed location.

Additional information

This course can be run with up to 20 delegates.

If you would like this course as a CPC option you must inform us in advance. You will need to supply us with delegates' driving licence details in advance of the course. Delegates will also need to bring their licence with them. If they have the old paper style licence, they will also need photo ID.

accidents don't have to happen

Accreditations

The full day course is Driver CPC approved and accounts for 7 hours.

You must inform us prior to booking if you want this option. Driver licence details will be required in advance.
