

QSA Approved Auditor

Aims and Objectives

- Impart a knowledge and understanding of HSG65 and provide delegates with experience of auditing safety management systems.
- On completion of the course delegates should have developed competence in the implementation of the QSA system in line with HSG65 and BS8800.
- Auditors will in general follow the practices identified in 'Guide to Quality Systems Auditing' BS7229:1991.

Who should attend?

This course is intended for those with some knowledge or previous training, who will be in a position to carry out an audit of their organisation's safety management systems and wish to learn the skills and practices of effective safety auditing through the use of the QSA workbook.

Delegates should have an understanding of the formulation and development of management systems in relation to policy, organising, planning, implementing, measuring performance and review.

Further information

In order to prepare for the course delegates are strongly advised to familiarise themselves with the HSE guidance document HSG65 'Successful Health and Safety Management'.

In order to attain **RoSPA Approved Quality Auditor** status these delegates must submit an audit of their organisation to RoSPA, ideally within six months of attending the course. This audit submission will be moderated and if approved delegates will be entered on a register of **Approved QSA Auditors** and their organisation will be registered as a QSA company.

To find out more about this course or request a full course programme:
