1. Guidance

This policy should be read and implemented by RoSPA Centres involved in the delivery of our qualifications.

2. Introduction

The purpose of this policy is to help Learners stay within qualification guidelines when completing assessments for our qualifications.

3. Definitions

4. Policy statement

This document has been written to help you stay within our qualification guidelines. Please read it carefully.

We understand that sometimes you are going to talk about assessments with your friends and colleagues. However, it is important to consider what you say and to think about what information is being shared.

Policy

Sharing ideas with others online can be helpful when you're studying. However, there are limits to what should be shared.

If you receive what is or what looks to be assessment related information through social media, or any other means, you must tell your Training Centre. Alternatively, you can email RoSPA at: qualifications@ROSPA.com

You must show them what you have received (if available).

The Centre will then report the matter to RoSPA (Awarding Organisation) and it will be investigated.

Where Learners breach the rules for coursework or non-examination assessments, Awarding Organisations have an obligation to investigate and may apply penalties.

You should be aware that the following constitute malpractice:

- Copying or allowing work to be copied – i.e. posting written work on social networking sites
- Collusion: working collaboratively with other Learners, beyond what is permitted
- Allowing others to produce your work for the assessment
- Exchanging, obtaining, receiving (even if not requested) or passing on assessment related information by any means of communication (even if just attempting to)

- Disqualification from a unit, all units or qualifications; or
- A ban from taking assessments for a set period of time
